Summary

Full-Stack Developer with hands-on experience building scalable web applications using React, Node.js, Express, MongoDB, and MySQL. Passionate about frontend secure backend integration, and modular architecture. Strong problem-solving skills with 600+ LeetCode challenges solved.

Education

Mohan Babu University, Bachelor of Technology in AIML 2023 – 2027
- GPA: 9.03/10.0

Viswasai Junior College, Nellore, Board of Intermediate Education 2021 – 2023
- Percentage: 96.4%

Sri G.V.S Sankaraiah Memorial School, Gudur, Secondary School Certificate (SSC) 2021
- Percentage: 99%

Experience

AatonovaZ Technologies Private Limited Tirupati
Full Stack Developer Intern Feb, 2026

Projects

Hire-AI — Multi-Agent AI Recruitment Platform (React.js, FastAPI, PostgreSQL, Redis, LangGraph)
- Architected a multi-agent hiring platform using LangGraph with 6 LLM personas (Architect, Culture Expert, Risk Monitor, etc.) that debate and reconcile evaluations to produce bias-aware candidate scores.
- Built a full-stack React 19 + FastAPI app with real-time SSE streaming, JWT auth, RBAC, and parallel async processing of 500+ candidates per batch in under 3 minutes.
- Engineered cost-optimized Groq LLaMA 3.3 70B integration with selective enrichment, anti-hallucination guardrails, Redis caching, and in-memory PDF parsing — reducing API costs by ∼70%.

Image Search Application (React.js, Tailwind CSS, Node.js, Express.js, MongoDB)
- Integrated OAuth2 authentication (Google, GitHub, Facebook).
- Connected to Unsplash API with dynamic query/pagination.
- Implemented search history tracking and top searches. Secured API with JWT and cookies.

Movie Explorer (React.js, TMDB API)
- Responsive app fetching movie data with dynamic search, genre filtering, and detailed views.
- Implemented local storage to persist and manage user watch history, ensuring seamless movie tracking across sessions.
- Connected to TMDB API with dynamic query/pagination.
- Optimized API integration using axios and UI components.

Technical Skills

- **Programming Languages:** Java (DSA), Python, JavaScript, TypeScript, SQL (PL/SQL)
- **AI & LLM Frameworks:** LangChain, LangGraph, RAG (Retrieval-Augmented Generation)
- **Web Technologies:** React.js, Node.js, FastAPI, Spring Boot, RESTful APIs, Tailwind CSS
- **Databases & Tools:** MongoDB, Redis, Git, VS Code, IntelliJ, Postman

Certifications

- React.Js (Scalar Topics)
- Java Basics (HackerRank)
- CSS Basics (HackerRank)

Achievements

- **Patent Published:** Privacy-Preserving GNN-Based Anti-Money Laundering Detection Using Fully Homomorphic Encryption
- Solved 600+ Data Structures and Algorithms problems
- Earned 4 Stars in Java, Python on HackerRank
